

As the only Tier-1 center for the WLCG/EGI/EUAsiaGrid projects in Asia, Academia Sinica Grid Computing Center(ASGC) provided high usability, stable, and All-day computing resources. From the following documents, users can obtain the following information and begin to use the resource:

- | Introduction to ASGC high efficiency computing services.
- | System infrastructure.
- | How to obtain CA(certificate of Authorization), and join the virtual organisation.
- | Software editing
- | Submitting jobs.
